NUMBER 42

LAST CIVIL WAR VETERAN HEADS ANTIOPH PARADE

A. J. Felter Participates in 68th Memorial Day; Legion Plans Program

Headed by Adison J. Felter, Antioch township's last surviving veteran of the Civil War, members of the community will pay their respects to war heroes of yesteryear with observance of Memorial day, tomorrow, at Hillside cemetery.

It is the 68th Memorial day program in which Veteran Felter has participated, since his service in the Army of the Cumberland under Gen. George Henry Thomas. He was assigned to Company F, 155th Illinois Infantry, being one of the youngest soldiers in the Union army at that time.

All of Antioch's patriotic organizations will have a part in the program which starts with a parade from the Grade school at 1:00 o'clock. Local stores will be closed from noon until after the ceremony at the cemetery.

Honor Spanish-American Vets. Besides Mr. Felter, places of honor will be held by John N. Pacini and Joe Keller, veterans of the Spanish-American war.

Arthur Maplethorpe, past commander of the American Legion Post, who is marshal for the day, announces that the parade will be arranged as follows: Colors, Alendale band, firing squad, Grand Army of the Republic veteran, Spanish-American war veterans, American Legion Post members, Daughters of the Grand Army of the Republic, Legion Auxiliary members, Boy Scouts, Girl Scouts, school children and the Antioch fire department.

Plan Extensive Program.

Upon reaching Hillside cemetery, acting chaplain, Rev. Loyal V. Sitter, will begin the ceremony with a prayer. This will be followed with music by the Alendale band, after which the flower ceremony will be conducted by the Daughters of the G. A. R.

The Memorial day address will then be given which will be concluded with the singing of the National Anthem, benediction, a three-volley salute by the firing squad, and "Taps" by Post Bugler Earl Horton.

The members of the firing squad are: Ray Webb, John Horan, Harry Messing, Walter Hills, Michael Whited, William White, and Ray Winfield.

The parade will form at the grade school ground and will proceed south on Main street to Lake street and thence west on Lake to Hillside avenue to the cemetery.

Veteran Felter and Silas Nichols, commander of the Waukegan post of the G. A. R. are the remaining civil war veterans in Lake county.

Milk Association Issues Last Call For Contestants

All entries to the Pure Milk association "Neat Farm" contest must be in by Wednesday, June 5, according to association headquarters.

They say that the response to the contest has been very favorable, with entries coming in from all parts of the milk shed. Northern Illinois and Indiana, and southern Wisconsin are all represented.

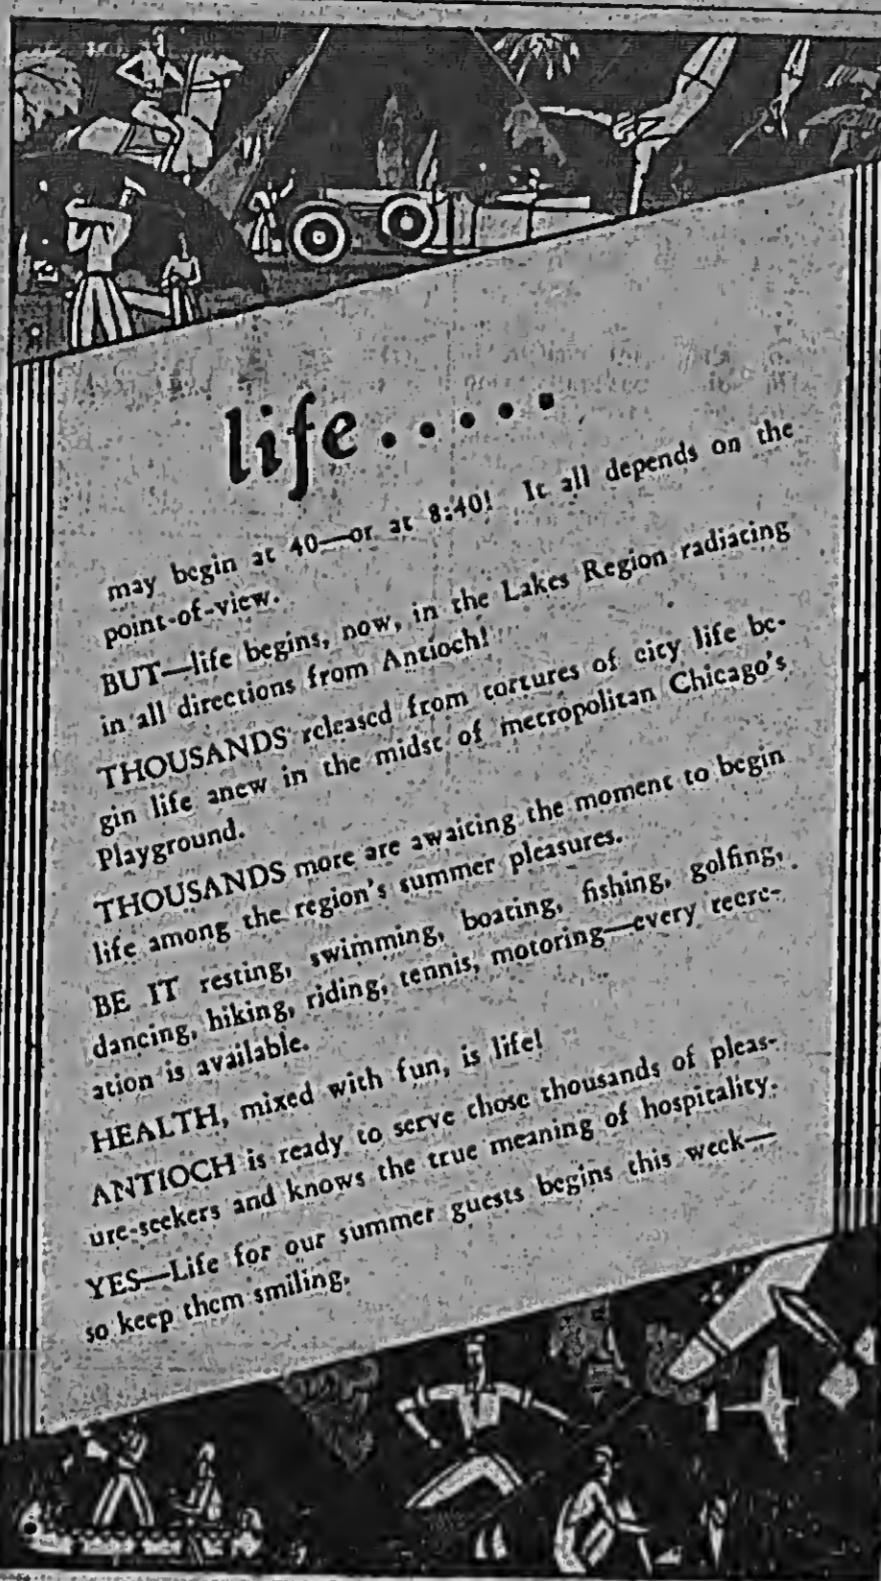

Some members have delayed entering the contest to see what effect the Mayor Kelly Milk Ordinance would have on their competing; but since this has no influence whatsoever on the contest, Pure Milk association members are urged to send their entries to the central office of the association.

Judging of the farms will begin on July 16, continuing till August 15. All farms receiving a rating of 90 per cent or better will be entitled to display the association "Award of Merit" plaque as indicative of their having one of the "Neatest Farms" of the Pure Milk association and in their community.

General appearance of the dairy farm counts for 50 per cent; condition of the dairy barn and herd counts 20 per cent; condition of the milk house, utensils and quality of milk counts 20 per cent; and the interior of all other buildings counts 10 per cent.

The association is again starting its search for its champion dairy made to compete in its district milking contests this year. All eligible young ladies 21 years of age and under whose parents are members are eligible to compete.

Salvador's Chief Product. Coffee is the principal agricultural product of Salvador, leading both in amount and value among national exports, of which it makes up from 70 to 80 per cent of the total.

DAIRY COMPANY OFFICIALS RE-OPEN ANTIOPH PLANT

Local Business Operated by Owners, Announcement States

Announcement was made today that the Antioch Dairy is now being operated and managed by the Antioch Dairy Company, Inc. The announcement, coming direct from the company's officials, carried information to milk producers of the locality that the local plant is not rented, leased or sold, but that it is in the hands of the owners of the business, including real estate and all equipment. Reports current among producers that the business had passed into other hands was the result of misinformation, an official of the company explained today.

The plant is under the direct control of the following officials of the company: H. J. Vos, president; C. K. Anderson, vice president; Lillian Williams, secretary; and W. R. Williams, treasurer.

Engage Manager.

Herman Long, Elkhorn, Wis., man of broad and successful experience in the dairy business has been engaged as manager. The plant has been inspected and has received the complete approval of the Chicago board of health.

The patronage of producers in this locality is solicited by the company and a flat price will be paid for milk delivered at the plant.

With the convenience afforded by the re-opening of the plant, together with the company's well established reputation for prompt payment and fair methods of dealing there is no doubt that the local plant within a short time will be re-established as one of the community's leading industries.

Former Antioch Resident Seriously Injured in Fall

Mrs. Clara Johnson of Champaign, for many years a resident of Antioch, was rushed to a Champaign, Ill., hospital following a fall in her home. Mrs. Johnson slipped while attending her household duties and fell, striking her arm and body on the molding. Hospital examination revealed a broken arm and bruise about her body. Her condition has been improving slowly, the reports to her Antioch friends state.

At a recent banquet in Waukegan of representative businessmen from Lake county one of the numbers on the program was the selection, "No. No. No. Thousand Times No." When the orchestra played the number all the bankers thought it was the national anthem—and stood up.

McMillen in Mat Win Over Oleson

Jim McMillen of Antioch dusted off the wrestling title aspiring Milwaukee Swede, Olaf Oleson, for the second time in two weeks with a few stunning flying tackles and body slams. This bout, which was Oleson's return match following their Libertyville struggle, took place Monday night as the main event in the Western Stadium arena. McMillen tossed the Milwaukee strong boy in thirty-two minutes, but not until after the aspirant had clamped tortuous face-locks on the Antioch giant. Waukegan Lou Plummer was fought to a draw in the preliminary by barefoot Bobby Bruns.

LIBERTYVILLE CHIEF HEADS CO. FIREMEN

Edward Schneider Chosen President at Lake Villa Meet

Fire Chief Edward Schneider of the Libertyville department was chosen president of the Lake County Firemen's Association at the annual convention held in Lake Villa Monday. Schneider succeeds Noel E. White of Fox Lake.

Others elected were John Johnston, Deerfield chief, as vice president; John L. Horan, Antioch, re-elected as secretary; Fred Hinman, Lake Villa, treasurer; and A. W. Foss, Libertyville, as sergeant-at-arms.

Although rain interfered with most of the outdoor activities planned by the firemen for the day, they did put on the water fight with the Fox Lake team winning over Lake Villa, Gurnee, Libertyville, and Long Lake in the elimination contest.

Plan for State Meet.

Departments of the association are already planning for the state party to be held in Waukegan next October. Speaking of this, J. L. Hunter, president of the Waukegan chamber of commerce, urged a full attendance when the state group convenes.

Guests at the convention Monday included Anthony J. Mullane, first deputy to Chief Corrigan in Chicago; Jack McAuliffe of the Chicago insurance patrol; and former state deputy fire marshal, Paul E. Bertram, of Crystal Lake.

The Lake County Firemen's association is now more than three years old and includes the 21 volunteer and paid fire departments of the county. Meetings are held each month, rotating from one city or village to another through the entire circuit. The annual Illinois convention in October will draw 500 or more visiting firemen from all quarters of the state.

Ab. It Was Them

"Our ancestors," said Eli Ho, the sage of Chinatown, "were able to speak with authority because they preferred firecrackers to canons and new titles instead of bombing planes."

SILT HINDERS ROAD-BUILDER ON ROUTE 173

Engineer Explains Causes for Soil Condition; to Install Drainage System

Silt, the arches of the road-builders, has hindered the progress of constructing Route 173 gap through Antioch.

Deep pockets of the earth were discovered all along the right-of-way, causing road equipment to sink like a broken-down tractor in Georgia gumbo. Already steam shovels are at work digging out the silt which will be replaced by a substantial fill and a system of draining off the underground water by tiling has been designed.

Road-builder Describes Silt. "Silt," says James N. True of Mundelein, state engineer on this project, "is a sort of mud or fine earth which is suspended in running or standing water."

He likens the action of water on silt to that of oil in the wick of a lamp. This action seems to draw the underground water to the surface thereby making the top soil soft and spongy. By removing the silt surface and installing a tile system to remove the water the condition will be overcome, the engineer declares.

Install Three Manholes

Plans now require the installation of three manholes at the intersection of Hillside avenue, covered with the "bee-hive" style, cover to allow surface water to run off the road more quickly. Both sides of the entire gap are to be guttered, the engineer's plans reveal.

According to present estimates by the contractor, it will require about a month and one-half to two months to complete the gap.

Hen-Nappers Nab Over 300 Chicks From Local Farms

Forty-six students complete their courses in the Antioch Township high school with presentation of diplomas at the Twentieth Annual Commencement exercises Monday evening.

William Rainey Bennett, internationally known humorist and inspirational lecturer, will give the principal address to the graduates. In many schools throughout the nation, he has become an institution and has the outstanding reputation of giving more commencement addresses than any other person during a given year.

In addition to the famous humorist, the high spot of the program, from the student point-of-view, will be the presentation of the diplomas by George R. White, president of the high school board of education.

Musical Groups on Program

Rev. Loyal V. Sitter opens and closes the exercises with the invocation and benediction, respectively. Throughout the program musical selections will be rendered by the high school orchestra and band, the girls' glee club, and the chorus.

Mrs. Gwendolyn Sitter of Antioch, with a scholastic high average of 92.8 per cent, is the class valedictorian, while Miss Sarah Perry of Kenosha, Wis., with a 91.8 per cent average, is the salutatorian.

Dan Williamson of Lake Villa is president of the 1935 class. Miss Agnes Christensen, Ray King, and Miss Jane Warriner, all of Antioch, are vice president, treasurer and secretary of the graduating group.

23 for Antioch

Of the 46 graduates, 23 are from Antioch; 16 are from Lake Villa; Grayslake claims three; Salem has two; and Bristol, Kenosha and Ingleside have one each. The graduating members are:

ANTIOCH—Kenneth Crowley, Armand Daigard, William Hansen, Xavier Hawkins, Oliver Hunt, Rodney Jacobs, Ray King, Robert Ray Smith, Crowley Phillips, Priscilla Brett, Ruth Chinn, Agnes Christensen, Irene Crawford, Eddie Hanke, Dorothy Hunter, Ruth Johnson, Grace Muilo, Gwendolyn Sitter, Virgile Tidmarsh, Helen Strang, Jane Warriner, Ruth Wells, Virginia Smith.

LAKE VILLA—Howard Bonner, Chester Craft, John Cribb, Howard Sherwood, Fowle Simpson, Lars Steffensberg, Everett Trux, Dan Williamson, Herman Meiermann, Jeanette Bellöck, Betty Bray, Jean Culver, Margaret Denman, Edith Murphy, Myrtle Daube.

GRAYS LAKE—Nora Arnold, Bertha Cremin, Cora Cremin.

SALEM—Marjorie Sheen, Anna Mae Turnock.

INGLESIDE—Stanley Lukas.

BRISTOL—Alice Richards.

KENOSHA—Sarah Perry.

With the conclusion of final examinations Wednesday (May 29) all student activities at the school will close for the summer months with the Commencement program. Grade cards for the year will be placed in the mail the first of next week.

Women Aid Antioch Better Housing Plan

Talks to Grads

She'll Help Get Action—Opine Women Members

Home-makers Are Planning What Improvements Are Necessary

In an interview W. R. Williams said: "Campaigns of this kind always result in good, the degree of good depending upon the effort put into them. I am for the present Better Housing campaign because it will relieve unemployment and make for better living conditions—in brief it is a move for public welfare." Mr. Williams, head of the firm of Williams Bros., backs up his words by supplying a considerable amount of paint, hardware, linoleum and drapes for the local housing exhibit.

Declaring that the women of Antioch will play an important part in the Better Housing campaign, women members of the local committee discussed their intimate interest in all home improvement at a recent meeting.

In urging women to aid in getting immediate action in their own homes, the group declared that when the federal government and the financial institutions are co-operating to make improvement loans without delay, "it is up to the home owner to start and keep this ball rolling until every home has had needed repairs."

They voiced their opinions with such expressions as:

"Here we have been waiting four or five years to get far enough ahead to spend money on improvements, then almost overnight the opportunity is laid right in our laps. Women will accept a large share of responsibility in getting this work started and in seeing that a thorough improvement job is done."

Home-maker Knows Problems. "The home-maker is closest of all the family to the problem. She knows better than anyone else how thin the paint is on the kitchen wall and what new colors can do to brighten the woman's workshop. She knows the uses that can be made of a remodeled attic or basement. She knows the exact condition of floors and walls and whether the roof is beginning to leak. Her task takes her into every corner of the house daily. When she sits down to write out in detail the pressing needs of this family home she'll make a real job of it."

The tone of the women's committee can be translated to mean that while "you may call this a property improvement campaign, it is something bigger—it is a genuine home-enrichment movement."

The members of the women's committee are: Mrs. John Robbins, chairman; Mrs. Percy Chinn; Mrs. George Anzinger; Mrs. Hugo Michel; and Mrs. H. J. Vos. Mrs. W. W. Warriner is the woman's representative on the campaign's executive committee.

600 Inspect Local Display

Despite inclement weather in the community, approximately 600 residents of the community have visited the exhibits displayed in the Naber building on Main street.

There are six sample-room constructions showing a modernized kitchen, an improved and plastered bathroom, a bedroom, living room, dining and paneled room. Each room has been furnished with up-to-date equipment and furnishings.

Around the top of each display, samples of all types of roofing have been laid out true to life roofs. At each end of the exhibition structures are samples of outside wall edgings.

The display is open during the day and in the evenings.

School Heads Name Lillian Vykrua for Channel Lake Post

Miss Lillian Vykrua of Antioch has been selected to teach the upper grades of Channel Lake school next term, the directors of the school board announce.

Miss Vykrua, who was graduated from Antioch Township high school and receives her teaching certificate this spring from the Northern State Teachers College at DeKalb, will succeed Miss Rhoda Jedebe of Wilmette, who leaves her position for maternity. Miss Myrtle Nichols of Antioch is the primary school teacher at Channel Lake school where she will begin her fifth term next fall.

THURSDAY, MAY 30, 1935.

WHEN?
America will attain greater prosperity than ever before.

More individuals and families than ever before will share in this prosperity.

More families than ever before will own their own homes.

Our current total of 21,500,000 automobiles will be doubled.

Our 13,500,000 telephones will be more than doubled.

Such little-used conveniences and comforts as air-conditioning equipment, sun-lamps, and television receivers will be commonplace in the home.

Much better provision will be made for caring for those thrown temporarily out of employment.

In short, a better day will dawn—certainly!

That isn't the opinion of a professional optimist of the "prosperity-is-just-around-the-corner" school. It is the opinion of B. C. Forbes, the realistic financial analyst, who expressed it in a recent issue of *Cosmopolitan* magazine.

The natural question to ask, then, is "WHEN are all these blessings going to come to us?" And that, in Mr. Forbes' belief, is largely dependent on the activities of government. He is confident that the pent-up natural forces of recovery are "rarin' to go" and that only man-made obstacles are standing in their way. Fears of inflation, stifling taxes, government competition with private

business, industrial regimentation, bureaucratic regulation of our great businesses—these are the friends of depression, and the enemies of recovery. What is needed, in Mr. Forbes' words, is "a sensible get-together between government and governed; a pact to work in harmony rather than at cross purposes."

A tremendous responsibility weighs upon our political leaders to bring that about. The American people are in no mood to let politics continue to interfere with the course of recovery.

CONGRESS HAS A NEW HERO—ICKES

House Democrats have just accorded Secretary Ickes a pan of praise for his labor and voted him a \$10,000-a-year assistant. It was not so long ago that the House was anxious to "spank" Mr. Ickes. The members didn't like him. He was "not courteous to congressmen." There was conflict over his policies and noisy objections to his methods.

But that was before Ickes was nominated to be one of the chief spenders of Four Billion Dollars. Every congressman wants some of that magic money for his constituents. No wonder Congress now shines up to Ickes.

LET INDUSTRY ALONE!

"Industry, let alone, is the only thing that can bring about recovery," said Governor Eugene Talmadge of Georgia, recently.

"Industry, let alone, is the only safety for our government

You cannot reform a scared, discontented, idle people. The first steps to reform are to let business recover."

That comes from a man in high public office. If the attitude it represents would swiftly spread to other officials, in both state and federal government, the nation would be considerably nearer better times.

"Share Our Wealth" clubs are being formed over the country, most of them organized by individuals with no wealth to share, and consequently no risk.

MAY BUILD HOUSES
OF EGGS AND MILKBetter and Cheaper Building
Materials Promised.

New York.—Even eggs and milk may enter the making of new construction materials in building boom predicted by famous chemists at the opening session of the American Chemical Society's centenary celebration.

A boom in the building industry inspired by discoveries of chemists, many of them made during the depression, was forecast by Prof. James R. Willow of Ohio State University. This inspiration includes better and cheaper materials, he said, than even those provided by nature.

New mineral woods were listed as promising heat and cold insulation at low cost. Electric wires will have thinner insulation, both safer and requiring much less space for wiring.

Artificial stones are already made in every color and with any degree of hardness a customer desires. New glues smell no better, but bugs of various sorts no longer eat them.

Lightweight Bricks.

Bricks that partake of the lightness of thistledown, and other, lightweight construction materials promise much higher, yet even safer skyscrapers.

F. Lee Smith, chief architect of the technical division of the Federal Housing administration, said:

"In addition to the basic building materials, we might add practically all the known substances, both organic and inorganic in character.

"Even milk, eggs and other food products can be included in this list, although the connection appears to be rather remote. Resins, oils, gases and vegetable fibers have a place in the construction of buildings."

Dr. Walter J. Podilewski, Chicago chemist, told the scientists of his new separating device, which, he said, would make it possible to buy the rarest perfumes at penny prices, eliminate the hangover in whisky and instantly age liquors. He called his invention a "super contractor" and explained that it will separate the tiniest impurity from any liquid.

As to the Hangover.

The "hangover," according to Doctor Podilewski, is caused by the presence of certain impurities always found in "new" whisky. They are partly removed by aging from four to eight years in charred oak barrels, but are completely removed by the new whirling machine.

In another report, C. F. Schubel of Kansas City declared that eating cereal grass is better than eating carrots, spinach, lettuce or a dozen other well-known vegetable greens.

He said the great food value of grass had remained unknown because previous tests were made when the grass was too old. Old grass, he said, loses two-thirds of its protein food values.

He tested young cereal grasses such as oats, wheat, barley and rye, cutting them before they formed their first joints. He said that one pound of this grass contained as much vitamin and "greens" value as 50 pounds of lettuce.

By Schubel's method the grass is dried and ground. He said that it may be used in baking cookies, pancakes and chocolate candy with good results on the flavor.

Cascalo in Mexico

Cascalo is not widely known to the tanning world outside of Mexico, but it has been used in that country for hundreds of years, and great quantities of it are consumed in Mexican tanneries every year. It has been called the national tanning material of Mexico. The most important point of distribution is Toluca, and the state of Guerero produces over 500 tons a year. The tanning content of cascalo is very high, running up to 66 per cent.

Fingerprints Sent by
Radio Aid to Detectives

London.—Transmission of fingerprints by radio is the latest link between science and criminal detection—a link that is being more strongly forged by Scotland Yard every day.

Experiments were begun several months ago. Although not yet regarded as an everyday, practical business, considerable improvement has recently been made in the results obtained.

At first the images were blurred, even when sent from enlarged prints, but greater technical experience is gradually overcoming this drawback.

The time is very near when in urgent cases, portable apparatus will be used to transmit fingerprints direct from the scene of the crime to Scotland Yard records, it was predicted.

As the technique of wire and radio transmission improves, it will be possible to send life-size fingerprint photographs speedily over any distance, police believe.

City Has to Fence Self
In to Keep Cattle Out

Midland, Texas.—Depredations of cattle that roam the streets of Wink, boom all town near here, will have caused the city authorities to resort to the old standby of ranch country wire fences.

Major Theford of Wink bought cedar posts and the entire corporation of Wink will be fenced off, becoming like the cities of old, which were walled in—except that the wall will be barbed wire in this case.

With the outside cattle fenced out, those who keep cows inside the corporate limits of Wink will be required either to keep them ataked out or in the pen, as an ordinance forbids live stock of any kind running at large.

Aged Man Is Getting
a Third Set of Teeth

Superior, Wis.—Seven years ago, C. H. Wright, now seventy-eight years old, had all of his teeth extracted. He didn't believe in false teeth and got along with no teeth at all until recently when his third set of teeth began pushing through his gums. He's got three now and expects to have a full set before long.

News of By-gone Years in Western Lake County

Forty Years Ago

The village school closed yesterday for the season.

Richmond will have "boss" racing on the Fourth of July.

A party of bank clerks arrived yesterday and are spending Decoration Day at the Lyman house.

Mr. and Mrs. Frank Van Patten welcomed a new baby boy Monday morning.

Among the Antioch visitors to Chi- cago Friday were: Miss Lella Williams, A. Chinn and A. H. Strome.

Twenty Years Ago

Mona Taylor spent over Sunday in Libertyville.

Mrs. Percy Hawkins entertained the church club Friday.

Percy Chinn, Frank Chinn and Arthur Rosenfeld motored to Chi- cago Monday.

Decoration Day dance at the Anti- oth opera house Monday evening, May 31st. Music by Hanneman's or- chestra. Lunch at Lenore's Cabaret. Everyone come and have a good time. Tickets, 75 cents.

D. A. Williams was elected Wednes- day evening as a delegate and J. C. James, as reserve delegate to the Methodist lay electoral conference which meets at Englewood, Oct. 8th.

Misses Hester and Alice Beebe en- terained about 40 friends at a fare- well party for Miss Helen Dineen at the former's home Friday evening.

Miss Nina Brook entertained a number of friends at her home Fri- day evening.

Fifteen Years Ago

PUBLIC MEMORIAL DAY

SERVICES SUNDAY, MAY 30

Public Memorial Day Services will be held on Sunday afternoon, May 30. The parade will form at the public school ground at 1:30 p. m. and march to the cemetery where the soldiers' graves will be decorated by the children. After the service of decoration a short program of recitations and songs will be given.

Mr. McTaggart has drilled the school children in some favorite songs and the band will be present to lead the pro- cession. All veterans of the Civil war and the late war with Germany are invited to join in the services.

In order to show what people outside of our village think of the work being done by the teachers of our grade school, we publish the following letter which was received at this office Wednesday:

"Chicago, May 25, 1920

"The Antioch News,

"Antioch, Illinois

Dear Sir:

"Having read in the columns of the Antioch News an article on the bazaar to be held May 25, 1920, for the benefit of an Antioch Grade school play ground, and desiring to assist in such a worthy cause and my family not being able to attend to contribute, I hereby enclose a check for \$5.00 for the fund.

"Please forward and greatly oblige,

"Adolph Gill."

Ten Years Ago

Frank Moran will leave this week for North Dakota to remain during the sheep shearing service.

Mrs. Charles Sibley, Mrs. Fred Hawkins of Antioch and their guest, Miss Kate Rea of Billings, Montana, were calling on old time friends on Friday. Miss Rea with a sister and brother were residents of Trevor a number of years ago.

Mrs. Joseph James and son, Ralph, called on Mrs. Longman of Trevor last Sunday.

J. N. Pacini has purchased a farm of 137 acres from the Wilson estate at Lake Como, and plans to build a summer residence for his family.

Use for Fish Eggs

Fish roe, milted of tiny fish eggs, and caviar—the prepared and salted roe and caviar—have long been favorite items on our menu, says Pathfinder Magazine. Caviar of the best flavor was long made from the great white sturgeon of Russia and accounts for the fact that it is often referred to as an "Russian dish." However, much of the caviar is made from the roe of the spoonbill, buffalo fish and catfish of the lakes and rivers of the southern United States. Fish eggs or roe are used for a variety of purposes other than food. In Britain the fisherman uses salted cod roe mixed with flour as bait to attract sardines.

The "Hogans" Indian

The traditional Indian "hogan" according to an authority, is an eight-sided dwelling built either of stone or logs chinked with adobe. Not all Navajos live in "hogan." It was explained. Some—but comparatively few—live in houses. The majority prefer the "hogan" because it has a hole in the top that provides an escape for both the smoke and the evil spirits, as well as an entrance for good spirits. The Navajo conceives evil thoughts as evil spirits; of good thoughts as good spirits.

Chief Who Never Slept

By his victory over the Indians at the battle of Fallen Timbers on the Miami river just above the town of Maumee, Ohio, "Mad" Anthony Wayne forever broke the Indians' back. Of this intrepid warrior the redskins said: "Wayne we cannot surprise, for he is a chief who never sleeps."

WILMOT

Mrs. Ferdinand Beck and Mrs. Vio- let Lavender and Andrew May were in Kenosha Tuesday.

Harriet Schramm of Richmond spent the week-end with Mr. and Mrs. Ferdinand Beck.

Mr. and Mrs. Edward Boulden and daughter, Lorraine, from Edison Park spent Sunday with Mrs. Boulden and Mary. Other visitors to the Boul- den home were Mr. and Mrs. William Newtham and Mr. and Mrs. Orin Newtham.

Sunday, guests at the Walter Calena home were Mr. and Mrs. George Hoepner and daughter, Shirley, of Elgin; Mr. and Mrs. William Shultz and niece, Miss Norton of Spring Grove, and Mr. and Mrs. Earl Shultz and daughter, Hazel, of Woodstock.

CCC

The park has been closed to visi-

HICKORY

Joe Wolz is recovering nicely from his recent operation in Kenosha hospital. He is expected home this week.

Mr. and Mrs. Bert King and daughter, Dorothy, from Chicago spent Sunday with the Emmet King family.

Mrs. George Thompson attended a birthday dinner in honor of Mrs. Earl Henry of Taylors Grove at Rosecrans Friday at the home of Miss Floy Dixon.

Mr. and Mrs. Ray Button and Geo- Hyde visited with Mrs. Button and daughters, Rose and Eda in Kenosha.

Mr. and Mrs. Almond Pullen and children of Waukegan were dinner guests at the Frank Barber home Sunday.

Miss Shirley Hollenbeck of Waukegan and Harmon Hollenbeck of Chicago spent Sunday at O. L. Hollenbeck's.

Mr. and Mrs. Clarence Crawford and daughter, Lucille from Waukegan spent Sunday at the John Crawford home.

Thirty school children from the Oakwood school including Albert and Milton Smith and their teacher, Mrs. Madelyn King, spent Thursday at the Brookfield zoo.

Mrs. Curtis Wells and son, Howard, spent Sunday in Chicago.

Mr. and Mr. Oscar Palm and son, Raymond from Waukegan called at George Thompson's Sunday afternoon.

Mr. and Mrs. Neil Guassarson and daughter and girl friend from Chicago spent Saturday afternoon at the Hugo Onssassarson home.

Mr. and Mrs. Wilbur received word this week from their son, Russell. He has been sent from Portsmouth, Virginia, to a U. S. Naval hospital in Philadelphia, Pa., for further training.

Miss Josie Mann of Grays Lake spent Sunday at the A. T. Savage home.

Mr. and Mrs. Frazier Hollenbeck and daughters from Park Ridge called Sunday evening at O. L. Hollenbeck's.

John Crawford, Earl and Miss Bertha, visited at the Leo Brewer home at Rollins, Thursday evening.

Edwin Speicher of Zion called at George Thompson's Sunday evening.

U. S. Naval Academy Bell

The bell which hangs in the navy yard at the United States Naval academy was presented to Admiral Perry by Japan on the occasion of the trip made by Admiral Perry to the Orient, which instituted the open-door policy with Japan. This bell is rung only when the Navy beats the Army in football games.

Strange Museum

One of the strangest museums in the world is at Barro, Czechoslovakia. It is a collection of articles used by readers as bookmarks. The exhibits include toothpicks, bootlaces, small coins, combs, cigarette packets, biscuits, monkey nuts, and devotional pictures.

The Baptismal Pool

Apparently the baptismal pool did not exist until at least the Fifth century, when it was found necessary, through the growth of cities, to obtain facilities other than the rivers or streams, which had been used up to that time.

Size of Iceberg

The size of iceberg varies. They may be hundreds or mere feet high with crevices or "minarets" from 200 to 300 feet above the base, which may be hundreds of yards in length. In the Kennedy channel, Greenly followed an iceberg which was estimated to be 15 miles long, over 100 feet thick, and of unknown breadth.

Height of Goliath

The height of Goliath, the giant slain by David, is recorded in the Bible, in the First Book of Samuel, seventh chapter, as being 6 cubits and a span. According to the measurement of today, this would probably represent 9 feet 6 inches.

Poem "The Blue and the Gray"

"The Blue and the Gray" was written by F. N. Finch. It was suggested by the act of the women of the Confederacy, who, in 1867, decorated the graves of Federal and Confederate soldiers buried at Columbia, Miss.

Islands Leased by U. S.

Great Corn and Little Corn Islands are in the Caribbean sea, east of the Atlantic coast of Nicaragua. Under a treaty proclaimed June 24, 1910, they were leased by the Nicaraguan government to the United States for 99 years.

tors for an indefinite period. The camp team desires kitten ball games with outsiders. They played a game with the Burlington team Sunday, losing 3 to 1.

Rev. Henry L. Hargarten of St. Francis Seminary will say the masses at eight and ten o'clock Sunday in Wilmot at the Holy Name church, and Rev. J. Finan will read the masses at seven and nine o'clock at Twin Lakes, standard time. Mass will be at 8:00 a. m. Ascension Thursday, following throughout the summer at the Holy Name church.

There will be a meeting of the par- ishioners Tuesday evening at 7:45 in the church basement, to discuss the Parish dinner and bazaar to be held

soon.

Mrs. J. Sutcliffe returned from the Woodstock hospital Monday.

Mrs. Lewis spent Friday in Silver Lake at the guest of Mrs. Fred Schen- neling.

Mr. and Mrs. J. A. Nolan of Oak Park, Irving Carey of Nipperlink, Anna Marie and Catherine Carey of Twin Lakes were guests Sunday at the Carey home.

The American Legion dance that was to have been given at the Pase- dena Gardens on May 30th, has been postponed.

Mr. and Mrs. Ray Button and Geo- Hyde visited with Mrs. Button and daughters, Rose and Eda in Kenosha.

Esther Wanis left Moundy to visit with Mr. and Mrs. Van Horn and other friends at Sharon, Wis.

Mr. and Mrs. Frank Kruckman visited Mr. and Mrs. Earl Hyde in Crystal Lake Sunday. Monday they at- tended the funeral of a relative in Libertyville, Ill.

Miss Dorothy Schooley spent the weekend with her parents at Janes- ville, Wis.

Grace Sutcliffe returned to Chicago Sunday.

Many beautiful gifts were received and a most delicious lunch was served. The wedding will take place on June 15th, at four o'clock in the Peace Lutheran Church.

There will be English services at the Lutheran church next Sunday at 9:30 o'clock and German at 10:45 a. m.

Mrs. Jedeole attended a shower on Thursday afternoon in honor of her daughter, Itheda, by the ladies of the Channel Lake School. A beautiful candle light setting was arranged in the school auditorium. Following the presentation of numerous lovely gifts a delicious lunch was served.

The following new officers were nominated and elected: Richard De- bell, president, Mrs. Howard Richter, vice president, Mrs. Lloyd Stoken, secretary, and Lynne Sherman, treasurer.

Personals

Callers at Mrs. Ellen Van Duzer's Sunday were Mr. and Mrs. Kuhall and two daughters of Kenosha and Mr. and Mrs. Erwin Pofahl, Salem.

Mrs. Laura Kletzien and Mrs. Ellen Van Duzer visited friends and relatives in Waukegan Saturday.

Miss Betty Dupre of Chicago spent the weekend with her grandmother, Mrs. D. A. Williams.

Dr. and Mrs. R. D. Williams and Betty Lou were guests of Mr. and Mrs. Philip T. Bohl of Des Plaines Sunday.

Miss Nancy Robinson of Waukegan, Canada, is spending until July with Mr. and Mrs. John Murray.

Mrs. Mollie Somerville entertained Mrs. Harold Iahn and Mrs. George Koppie of Chicago Tuesday.

Mrs. John Held of Shillier Park spent last week with Mrs. Charles McCorkle.

Here's hot news, neighbor—the 40% from Standard List Price on Tires continues through May at the Gamble Store Agency. Get new, safe tires on your car now at these prices. R. Eckert, owner.

Mr. and Mrs. B. R. Burke are entertaining for Memorial Day: Misses Deedie and Mary Tiffany, Homer Tiffany, Mr. and Mrs. N. E. Sibley and daughters, Mary Lou and Rosalie, Mrs. Susan Webb and son, E. Morley of Antioch and Mr. and Mrs. Charles Tiffany of Waukegan.

Mr. and Mrs. James Babor entertained at their home Sunday, Mr. and Mrs. George Malak and children of Berwyn and Mr. and Mrs. Frank Corney and son, Edward, Mrs. Emil Uher and Mr. and Mrs. James Raz of Chicago.

Frank King spent Tuesday in Chicago.

Miss Elsie Osmund of DeKalb spent the weekend in Antioch with her parents, Mr. and Mrs. Lester Osmond.

Church Notes

ST. PETER'S CATHOLIC CHURCH

Antioch, Illinois

Sunday Masses 8, 9, 10 and 11 o'clock. Daylight Saving Time. Week-day Masses—8 o'clock. Catechism Class for children—Saturday morning at 10 o'clock. Confessions—Saturday afternoon and evenings from 4 until 6 and from 7:30 until 9 o'clock.

Rev. F. M. Flaherty, Pastor.

Telephone Antioch 274.

ST. IGNATIUS EPISCOPAL CHURCH

The Rev. J. E. Charles

Sunday after Ascension, June 2, 7:30 A. M. Holy Communion. 10:00 A. M. Church School. 11:00 A. M. Holy Communion and Sermon.

4:30 P. M. Evensong. St. Andrew's choir, from Chicago, will be with us for this service. We hope there will be a large attendance of our own people. St. Andrew's has long been noted for its splendid Men's and Boys' choir, and we remember with delight their visit of last fall. Lunch will be served in the Guild Hall following the service, with Mrs. John Horan in charge.

Also a new Permanent Wave machine of the latest type. This machine is equipped to take care of 48 heaters and gives either the popular Croquignole or Spiral wave or a combination of both at one sitting. It has a separate automatic timer clock for each set of heaters which shuts off the current automatically at the proper time.

Also a voltmeter which allows the operator to make adjustments if there are any variations in the electric current supply.

Key to the City
Giving the key to the city is an old European custom handed down from the days when cities were more like fortresses, surrounded by stout walls, and people could only enter or leave through the gates that were shut tight at sunset. The keys of the gates were heavily guarded, kept by the mayor or military commander, given up only when the city was defeated in battle and the conquerors had a right to their possession.

Starlings Are Mockers
The Bureau of Biological Survey says that the starling belongs to a different family Sturnidae, from the mocking bird family Mimidae; however, almost all members of the starling family are mockers. The starling has been known in England to imitate as many as 53 bird songs.

Meaning of "Bitter Ole"
Any situation which is preferable to the one occupied is a better "ole." The phrase came into use during the World war and is remembered for the incident used by Captain Balmfurther in which a soldier taking cover in a shell-hole objects to leaving it until a better hole is provided.

Meaning of "Broadtail"
"Broadtail" is a fur trade name meaning the skin from the Winter-killed lamb of Bokhara, the original of which is properly called Persian lamb. Broadtail is nearly always black, is much smaller than Persian lamb skin, and has a very silky, moire-effect fur-wool.

The President's Mail
The President's mail is opened by his secretaries and clerks, and he sees only the most important letters. More than a million letters a year are received at the White House, and it would be impossible for the President to read all of them.

Giantism Among Animals
Giantism exists among animals as among men. The famous Lincolnshire ox exhibited in London in 1790 stood five feet six inches at the shoulder and was nearly twelve feet in length. It is said to have weighed two tons eighteen hundredweight.

First English Colony
The first English colony in North America was established on Roanoke Island August 17, 1585. It is within a few miles of Kill Devil Hill, marked by a monument commemorating the Wright brothers' first flight in an airplane.

Oak Symbol of Strength
In all ages and climes the oak is the symbol of strength.

Mr. and Mrs. S. Boyer Nelson
returned Sunday night from a trip to southern Illinois.

Mrs. Ray Smith and son, Robert
S. Boyer Nelson is in Waukegan on business Tuesday.

Ed Shafra of Chicago, secretary of the Channel Lake Bluff subdivision spent the weekend at his summer home preparing to bring his family out for the summer.

Mr. and Mrs. B. R. Burke and family are now living on Woodlawn Ave. Channel Lake.

Misses Deedie and Mary Tiffany
moved last Saturday from Waukegan to their home west of Antioch.

Billie Mayo Runyard, daughter of Mr. and Mrs. Alonso Runyard, is ill with scarlet fever at their home on Beach Grove Road.

Miss Ruth McCorkle of Elgin spent Sunday with her parents, Mr. and Mrs. Charles McCorkle at Grass Lake.

Marguerite Makes
Timely Improvements

In keeping with the program of the Federal Housing Administration that business houses should also keep step with home owners in making improvements at this time, Marguerite Introne, the proprietor of the Little Marguerite Beauty Shoppe on Orchard street has made the following improvements and additions to her shop this spring:

Installation of a 100-gallon hot water storage tank and a large heater to take care of same.

One more booth added to her equipment to take care of the increased business outlook.

A new Turbulator Hair Dryer, known as the fastest drying machine on the market. This is the second machine in the past year.

Also a new Permanent Wave machine of the latest type. This machine is equipped to take care of 48 heaters and gives either the popular Croquignole or Spiral wave or a combination of both at one sitting. It has a separate automatic timer clock for each set of heaters which shuts off the current automatically at the proper time.

Also a voltmeter which allows the operator to make adjustments if there are any variations in the electric current supply.

Mrs. Jane Slocum Rites
To Be Held Friday Morn

Last rites for Mrs. Jane Slocum, who died last Tuesday at the home of her son, Leroy J. Slocum, at Genoa, Ill., will be held Friday morning at 11 o'clock from Roscrans church.

Mrs. Slocum, who spent most of her 83 years in Newport township, was born February 15, 1852, at Woodworth, Wis. She is survived by a daughter, Mrs. R. G. Murrie, of Roswell; a son, Leroy, with whom she lived; a brother, Robert Smith of Kenosha; ten grandchildren and twelve great-grandchildren.

Amazonas

The term Amazonas has become somewhat fixed in the minds of many people. Although it is the English equivalent of a single Brazilian state, Amazonas, the designation covers the whole area watered by the Amazon and its tributaries, a region that embraces northern Brazil and parts of eastern Bolivia, Peru and Ecuador.

Once Under Sea

Early in the formation of this continent the interior lowlands of North America were under sea. When the water receded, there were left layers of sedimentary rock. In most areas the sea was on the surface, cutting what was once a level ocean floor into its present contours.

Earliest Stage Properties

Before Shakespeare died there were some stage properties on beds, tables, chairs, dishes, shop ware, and perhaps some artificial trees, mossy banks and rocks. A theatrical manager in an inventory of stage properties (1508) mentions "the Sillie of Rome" which probably was a cloth painted to represent the city.

Ptarmigan Changes Color

The ptarmigan is a bird which changes color according to its background, on a glacier, living on insects; it is as white as snow. When the ptarmigan goes to the shore of one of the higher lakes, it turns the color of the gravel along the shore. It dwells in the high altitudes, usually around glaciars.

The Cherokee Alphabet

The Cherokee alphabet was invented by Sequoyah between 1800 and 1821. It was the product of his contact with white civilization. It was accepted by the Cherokee nation and thousands were soon able to read material prepared in their own language.

Great Britain's Lumber

Only between 5 and 6 per cent of the lumber used in Great Britain is grown within the borders of that nation.

JUNE IDEAL MONTH TO PROVIDE HAPPIER HOME SURROUNDINGS

Pleasure of Living Comforts
Will Become Part of
Every Day Life.

June may be the month for honeymoons—but it offers an opportunity for home owners.

It's really the ideal month for providing happier family surroundings and increased material comforts—not just thrills of the moment, either, as are so many things for which we spend money.

You guessed the answer! Yes, it's remodeling, renovating, modernizing and otherwise improving living comforts both inside and outside the house. These are not temporary amusements which come and pass—but pleasures from home improvements that stay with us and around us to become a part of our every day life.

And still more important—these little improvements are the only means of keeping our homes up—and our future repair bills down. Repair bills submitted, not only from the contractor, but from the family doctor:

Watch Your Step!

For instance, the steps to the porch may be weakened by the elements to the point of breaking and should be mended before a serious accident befalls some member or guest of the family. Ragged floor boards and loose railings are likewise dangerous.

Perhaps insufficient ventilation beneath the porch is responsible for its failure to live up to requirements, for where there is no ventilation, the paint will peel and the wood will rot. Or if there are unattractive open spaces under the porch, think how a little lattice work will hide them!

There are the gutters and downspouts, roofs and fascia boards to be thoroughly examined because they are guardians of the home's vulnerable spots. They have only to leak a bit to cause plenty of trouble and damage for you, outside as well as inside your house. So make sure there are no defects and while you are about it, check up on the chimney to see if it needs painting or the bricks need replacement. If the drafts don't live up to expectations last winter, perhaps the chimney requires a little lengthening.

Paint Down Deterioration

Too much emphasis cannot be placed on the wisdom of proper protection to the outside of the home where constant attacks of sun, wind and moisture eat their way into the outer walls. There is no protection like a coat or two of good paint to repel this deterioration. And this paint-protective should not be withheld from other so-called "danger-spots," which can rust and rot and prove quite expensive when it becomes absolutely necessary to replace them. Edges of eaves, thresholds, joints of porch railings—these are some of the items which should not be forgotten.

There's no time to lose if the screens are not ready. Damaged or worn-out mesh must be replaced and after they are mended and thoroughly cleaned, the screens should be protected by varnish or screen enamel. If privacy inside the house is required, a coating of light colored paint or enamel on the screens will make it difficult for those outside to see clearly inside the home—and it will not blind the vision of those inside looking out!

Build for Health's Sake.

Outside sleeping is a habit conceded to be healthful most seasons of the year and this can be easily provided with a glassed-in sleeping porch. Where there is no open porch which can be enclosed in glass, such a sleeping room is easily built. For instance a first floor porch will provide an excellent foundation for an upstairs sleeping room and it is not expensive to lay a well-insulated floor and build a room above.

Another summer pleasure. If you have an open porch, it is to be screened. For shades there are colorful awnings or smart Venetian blinds that will keep the porch open to the summer breezes and secluded from the open street.

Tribe's Wealth in Necklaces

The only general form of wealth among the Mayas of Yucatan are the silver necklaces which the women wear about their necks. In case of divorce, the necklaces are considered communal property and are divided between husband and wife.

Beverages Contain Chemicals

Many very scientific persons who perhaps would laugh disdainfully at the idea of drinking herb tea, as the Colonials did, nevertheless every day drink coffee, tea and coco, which are all plant products, "herbs," containing chemicals used in medicine.

Habits of Birch Trees

The canoe or paper birch, betula papyrifera, will grow 70 to 80 feet high. On young trees the bark is pure white. On older trees it is streaked with black and looks torn and crumpled. The branches are not pendulous.

PRACTICAL LESSON IN MODERNIZATION

At a minimum cost the neglected house shown on the right was converted into the attractive, cozy home shown above. Many projects like this one are now being undertaken as a part of the National Better Housing program which is offering Antioch residents an opportunity to improve their homes.

"IN DIJON—"

By JACK DE WITT
© McClure Newspaper Syndicate.
WNU Service.

MIKE DELANEY of the plain clothes detail flicked at his immaculate civilian suit with a whisk brush. "Going out deep tonight, Mike?" the question was tossed at him in friendly carelessness by Lieutenant Reese. "Take Ann to dinner," replied the plain clothes man, "and no gags from you."

Lieutenant Reese looked up from the files, reports and "Wanted" circulation he had been perusing and his dark face beamed.

"Mike, a swell kid, and no toolin' But—ever been in Dijon, Mike?"

"Dijon?" queried the plain clothes officer. His lean, clean-shaven face came alive with a happy memory. "You mean Dijon in France? Sure, I was there. Right after the war? Why?"

"Ever meet the Bluebeard of Dijon?" asked the lieutenant, without humor.

Mike Delaney eyed the officer suspiciously.

"What you getting at?" he wanted to know before committing himself.

"Just this," the lieutenant thrust a paper towards him. "First pickup order we ever got from a foreign country. And them frogs go for rewards, too. See the figure? Fifteen hundred American dollars reward for the Bluebeard of Dijon."

Mike Delaney read hurriedly.

"They seem to think this mug's in this town," he said to the lieutenant. "Yeah," agreed the desk officer without enthusiasm, "but they have been trying to trail him for five years. No chance pickin' him now. Killed a lota women, didn't he? I didn't read it careful."

Mike Delaney was reading aloud.

"Wanted for Murder, Nicholas Lamire. The Bluebeard of Dijon. Killed six women and fled before collecting insurance for last victim. The trail of this man has been followed in Spain, Italy, Australia, Hawaii and Trinidad—where it was lost five years ago. Recently a letter was received by a Dijon acquaintance, mailed in your city by the subject of this circular. No photograph of Lamire is available. When last known in Dijon—where he spent the greater part of his life in the restaurant business, he was 5 feet 9 inches tall, weight 160 pounds. Dark hair and eyes. His appearance has undoubtedly changed considerably but he may be readily identified by a triangular scar, result of a knife wound, two inches below the point of his right shoulder blade. He may be employed in a restaurant in your city and he may be the proprietor of a restaurant of the better type."

Delaney paused in his reading. The lieutenant observed: "How you gonna identify him from that description after these years? Got fat by now, if he works in restaurants."

Delaney was still thinking of Dijon when he reached the sidewalk. Suddenly he laughed aloud.

It was 7:30 when Mike Delaney presented his broad shoulders in the doorway of a neat suburban cottage.

Ann Morgan met him at the door.

"Late, Mr. Delaney. Fifteen minutes late. Give an account."

Mike Delaney said nothing. He usually went tongue-tied for the first few minutes in Ann Morgan's company anyway. When his little coupe was nosing through downtown traffic again, and when Ann had cuddled comfortingly close to him, he said half-musically:

"If we had fifteen hundred dollars

CANCER CURES GIVE HOPE TO AFFLICTED

Clinical Research Has Made Wonderful Strides.

Kansas City, Mo.—Clinical research has advanced so far in its work with cancer that afflicted persons need no longer become resigned to the belief that they are incurable.

Most cases of cancer now are curable by surgery, and clinical observations have established some facts contributing to a science of cancer prevention. It was disclosed by Dr. Wallman Walters, assistant professor of surgery at the Mayo Foundation, Rochester, Minn., in addressing envoys here.

Doctor Walters is one of the nation's most distinguished young surgeons, a specialist in the surgery of cancer.

The two greatest obstacles in a scientific treatment of cancer is widespread quackery and the lack of public information on preventive methods, he indicated. The cause of cancer is still unknown, but researchers now know certain races and families are more susceptible to cancer than others, and some possess cancer resistance. The white race is subject to cancer more than any other race.

Doctor Walters explained:

"Cancer is curable when the lesion is localized. Both the X-ray and radium treatments have proved a great aid to surgery in the treatment of cases where surgery was impossible. Cures have resulted in such cases."

"The skin cancer is noticeable as it becomes a nodular tumor. In many cases the skin will break down and an ulcerous condition will develop. Any lump of the skin that resists treatment should be regarded with anxiety by the patient and a doctor should be consulted."

"An internal cancer develops internal disorders. When any organic function becomes disturbed an examination for cancer should be made. The diagnosis of cancer is conclusive. Today the scientific visibility of the internal organs makes cancerous examinations almost perfect."

Doctor Walters said that a third, possibly half, of all surgical cases today are in the field of cancer. He said that in more than half the cases the affected organs could be removed.

For the first year following her marriage, it is customary to speak of a young matron as a bride.

Dr. and Mrs. Gindrich entertained

LAKE VILLA

A class of ten graduated from the eighth grade last week and held graduation exercises at the church on Wednesday evening of last week. The following boys and girls composed the class: Jack Ellinger, Janice Kapple, Eileen Snyder, Harold Miller, Margaret Walker, Lee Kelsler, Kenneth Leiling, Venita Philipp, Virginia Hadad and Donald Sherwood. The following program was presented:

Processional Miss Masterson Invocation Rev. De Selma Group of Songs Room 11 Class Will Jack Ellinger Instrumental Quintet directed by Monte Hinton Clarinet Solo Venita Philipp Trumpet Solo Virginia Hadad Class Prophecy Jean Perry Class Poem Donald Sherwood Song, "God of All Nature" C. C. Claxton

Address of Grati Township High School Reading of Honors C. C. Frye Presentation of Class Memorial Janice Kapple

Presentation of American Legion Award B. S. Haddad Presentation of Diplomas C. C. Frye Song, "Parting Days" Eighth Grade Benediction Rev. De Selma

Eileen Snyder was the one selected for the American Legion award for girls, and Donald Sherwood for the boys, both being based on scholarship, behavior and all that goes to the making of fine boys and girls.

Miss Belle Richards of Antioch called on friends here last Friday.

The Ladies Aid Society will meet next Wednesday, June 11, in the Ladies' Aid room and you are invited to be present.

Clarence Miller and friend came out from Chicago to spend Sunday with the home folks.

Mr. and Mrs. Henry Nader and Mrs. Nader's cousin drove out from Kenosha last Sunday to spend the day with relatives here. Mr. Nader is still on crutches because of the injury to his foot last summer when he broke his ankle. His improvement has been slow.

Miss Masterson and Miss Perry were Waukegan visitors on Saturday.

Mrs. H. J. Nelson and Miss Lena were Waukegan visitors last Saturday.

Mrs. Charles Glessner of Maywood came out Saturday and remained until Monday as the guest of her uncle and aunt, Mr. and Mrs. James Atwell.

H. H. Perry spent Sunday with his family here.

Mrs. T. B. Rhoades, William and Katherine drove to Minong, Wis., to attend graduating exercises at the High school there, as Jack was one of the class. We congratulate Jack on the completion of his high school work. They all returned on Saturday.

For the first year following her marriage, it is customary to speak of a young matron as a bride.

Dr. and Mrs. Gindrich entertained

Ah-hh-hh . . .

DILAPIDOSIS

It's a serious illness for a house! Symptoms? Roof leaks, steps sag, gutters rust, walls look battered, etc.

Dilapidosis is cured by the magic of simple repairs or modernizing. Expert attention plus correct materials will do more than save your home. It will result in happier family surroundings and increased material comforts.

Take a good look at your home. Do you get a thrill at what you see? Does your family take pride in it?

Why not call us in to consult your case? We will gladly make a free estimate on the cost of curing your house ills and explain details of how you can benefit by the National Housing Act. Now is the time to take precautions against that disease called—

friends from the city on Sunday.

Mrs. E. J. Murrie of Lake Forest attended the graduating exercises here last Wednesday evening.

Mrs. Horace Kapple and children of Grayslake spent Monday with Mrs. P. R. Avery.

School closed Friday with a picnic at the Silverwood Camp on Cedar Lake, an ideal place for the outing which was much enjoyed and appreciated. The day, too, was ideal and all went well. Mr. and Mrs. Frye will remain here for the greater part of the vacation. Miss Fahey will be at her home here and Miss Masterson left early this week for her home at Vandalia to spend the summer. Miss Masterson has been engaged to teach at Grayslake for the coming year, and Mr. Frye and Miss Fahey will carry on the work of the school here, with perhaps a bit of help for extra work.

Mr. and Mrs. Jorgenson, Mr. and Mrs. Summer and Mr. and Mrs. McMahon, all of Chicago, were guests of Mrs. J. A. Pedersen and Mr. Abent on Sunday.

Mr. and Mrs. Paul Scott and children of Waukegan and Mr. Scott's father who lives in Esterville, Iowa, spent Monday afternoon here.

The Farmers of Lake county held their annual convention at Lake Villa on Monday, but because of the rain, the baseball game to have been played between Waukegan and Lake Villa and the concert by the Allendale and Grand schools were necessarily omitted. Libertyville was awarded the cup for best appearance and the water fight. The \$50.00 prize in the drawing was won by a Lake Villa man, the \$25.00 prize by one from Lake Bluff, and the \$10.00 prize went to Mr. Pirsch, the fire truck man from Kenosha. Barnstable hall was full for the business of the evening and J. K. Cribb as Village President welcomed the group. Speeches were delivered by Sherman V. Coulter, State Fire Marshal, Michael Corrigan, Fire Marshal of Chicago, Mancel Talcott, Mayor of Waukegan, and other visiting delegates.

Mountain Goat High Climber
The Rocky mountain goat is most difficult to photograph because it climbs to extreme altitudes, dwells on the most rugged part of the mountain and has a keen sense of smell. It jumps from rock to rock with great speed.

Burial Place of Jefferson Davis
Jefferson Davis died December 6, 1889, and was buried at New Orleans. On May 27, 1903, his body was removed from the tomb, taken to Richmond and interred with impressive ceremonies in Hollywood cemetery.

Greatest Rainfall Recorded
The greatest rainfall ever recorded anywhere in the world within a 24-hour period was July 14-15, 1911, on the island of Luzon in the Philippines, when it rained 1,103 mm., or approximately 3 feet 10 inches.

Bride One Year
For the first year following her marriage, it is customary to speak of a young matron as a bride.

TREVOR

Bob Schmidt of the Trevor school has a perfect attendance record for the past year. Others who have an almost perfect attendance are Cora Mizen, Robert Hirschmiller, and Ray, mound Hirschmiller.

Mrs. Susan Carroll was called to Chicago Thursday by the serious illness of her mother.

Mrs. Ruth Thornton was a Chicago visitor Tuesday.

Larry Astrop arrived Tuesday morning from Montana with a car load of horses for the auction sale on Thursday.

Mrs. Tillie Schumacher, Mrs. Louis Decker and Mrs. Joe Fernandez were Kenosha shoppers Tuesday.

Mrs. Ed Yopp, daughter, Rose, and Mrs. Jessie Allen and daughter, Priscilla, were Antioch visitors Tuesday.

Dr. Forge of Burlington was a business caller at the stock yards Wednesday.

Miss Sarah Patrick and Mrs. Alice Terpolow accompanied Mr. and Mrs. William Evans and daughter, Margaret, to Kenosha Wednesday.

The Trevor 4-H club leaders met at Social Center hall on Wednesday evening for the purpose of reorganizing.

Miss Wyld of Winnetka, Ill., is visiting Mr. and Mrs. James Walsh.

Mrs. Luuanah Patrick spent Friday with her son, Byron and family, at Salem and also called on the Misses Jennie and Josie Loscher.

Mr. and Mrs. Joseph Holly and daughter, Mrs. Clifford Hanley and El. J. Sullivan, and daughter, Patricia, Chicago, were visitors at the D. A. McKay home Thursday.

Elbert Kennedy, Wilmot, was a Trevor caller Thursday.

Mr. and Mrs. Joseph Smith accompanied Mrs. D. A. McKay and niece, Ruth Thornton, to Kenosha, Friday.

Mrs. Elizabeth Corrin who is attending school at DeKalb, Ill., spent the weekend with her parents, Mr. and Mrs. Richard Corrin.

Mrs. Anna Zmierzly, Chicago, spent Friday with Trevor friends and also attended the school picnic.

Harry Longman, River Forest, Ill., called on the Daniel Longman family Friday.

School closed Friday with a dinner served to over one hundred at Social Center hall. Games were played by the grown-ups and children and prizes were given. The four eighth graders namely: Eloise Allen, Lucille Laverduski, Raymond Forster and Stanley Ruyard, passed the examination. Bobbie Schmidt and Robert Hirschmiller had the same markings in arithmetic in the sixth grade and stood the highest in the town of Salem; Ray Patrick of the Salem Center school standing the next highest. William Fox of Salem has been engaged to teach the school the coming year.

Mrs. Jessie Allen and daughters were Waukegan shoppers Saturday.

Mrs. Helen Hallett, Mr. and Mrs. James Lamb, daughter, Betty Jane, and friend, Mary Jane Holub, Kenosha, were Saturday evening callers at the Joseph Smith home.

Mr. and Mrs. Raymond Vandermoon and son, Louis Smith, of Kenosha, were Sunday dinner guests at the Chris Schafer home. Afternoon callers were Mr. and Mrs. George Higgins and daughter, Geradine, Wilmot.

Mr. and Mrs. William Smith and children, Douglass, Wisc., spent Sunday with Mrs. Smith's mother, Mrs. Mattie Copper and sister, Pauline Copper.

Raymond Fage, Corning, Iowa, spent the weekend with Karl Oetting. Fritz Oetting, Clermont, Ill., spent Sunday with his uncle, Charles Oetting and family.

Sunday visitors at the Pete Schumacher home were Mr. and Mrs. Albert Mitz, Chicago, and Mr. and Mrs. Ed Topel, Libertyville, Ill.

Mr. and Mrs. Ed Glerum, Kenosha, called at the Joseph Smith home Sunday afternoon.

Producing Cellulose

Wood is not an ideal source of cellulose. About half of its solid matter consists of resins and certain complex organic substances known as lignins, which act as binding agents to hold the cellulose fibers together. The process of extracting the cellulose from the other material consists of cooking wood chips under considerable pressure with either caustic soda or calcium sulphite. Under these conditions the resin and lignins are decomposed into water-soluble substances, which are drained off with the water or a dark colored liquor. The pulp remaining consists largely of cellulose, which after bleaching, is ready for use.

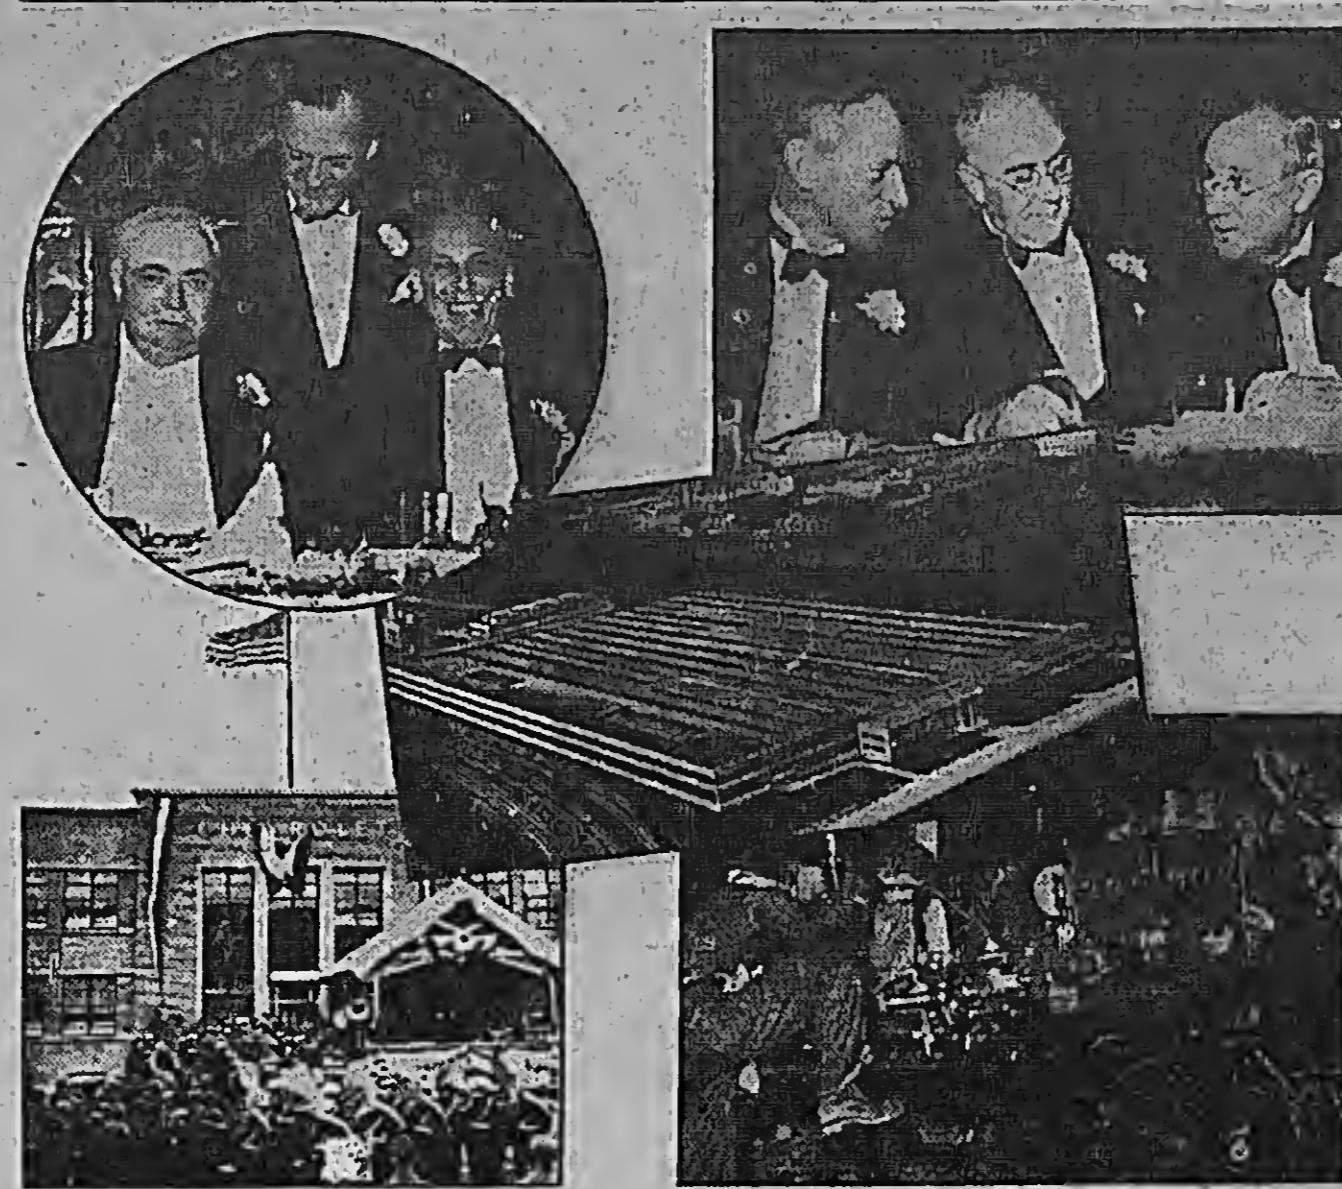

Forced to Steal Girls

In the early days of Latin America each adoring swain, before he could gain his damsel's hand, must perform the conductus for his future father-in-law, and even after he had successfully put that through, (a year's work without pay), he must buy or steal an Indian girl who should become the attendant of his bride. As Indian girls cost about \$500 apiece in the market (far more than most young men possessed), sealing was in order, says the Washington Post. Not all these things were accomplished could the poor youth really claim his lady-love.

City of Five Flags

Mobile, Ala., is known as the City of Five Flags because of its history under five jurisdictions, as follows: France, 1702-1763; Great Britain, 1763-1780; Spain, 1780-1818; Confederacy, 1861-1865; and United States, 1865-1868.

New Chevrolet Assembly Plant Opens in Baltimore

Governmental, state and civic officials joined with the principal executives of General Motors Corporation in the formal opening of the new 80,000-car-a-year Chevrolet assembly plant Baltimore recently. The new plant (center) was dedicated with impressive ceremonies (lower left), and Chevrolet, Fisher Body and General Motors officials were guests of the Baltimore Association of Commerce at a formal banquet in the evening. W. E. Holler, vice-president and general sales manager of Chevrolet, is shown (standing) with Maryland's Governor, H. W. Nice, and Alfred P. Sloan, Jr., president of General Motors (upper left). M. E. Coyle, president and general manager of Chevrolet, is pictured in the upper right photo with Senator Millard Tydings (left) and Mayor H. W. Jackson, of Baltimore (right). Lower right shows the first motor car built in that city.

Forgotten Children, a "Ghost" School and Distressing Poverty—Illinois

Snapshots taken at a "starved" school in Jackson county; note the open, old-oaken-bucket well and general collapse.

Winooski boarded up, entire sash-gone, bleak and unpainted, holes in the foundation, holes in the walls, teachers unpaid for years—this is the condition of the school in Hallidaysboro, Jackson county. One room has deteriorated until it is wholly uninhabitable.

Hallidaysboro's school is typical of many of the "ghost schools" of Southern Illinois. It's a mining camp, the mine down much of the time, the mine down-st-student and whipped into a humbleness that is depressing. Boys and girls in school portray the helplessness of the situation.

Some of the girls, clad in worn and tattered boy's overalls, scurried from sight when the cameraman appeared. The school has 123 pupils and three teachers. Assessed valuation is \$182,500. The tax rate, for schools, by special vote \$2, should mean a school income of \$3,650 a year or \$10.08 per child.

But because of poverty and starvation conditions only about \$800 was collected last year. Board requirements are \$4,720 a year; teachers' orders have increased to \$6,500 outstanding, increasing, and not being paid. It would require 10 times the tax collections last year to pay the debts already due.

Hallidaysboro asked for \$1,591.52 state aid for its schools last year. It got "only some of it" because the state is delinquent in paying all schools in Illinois what it owes them.

Japanese "No" Robes
"No" robes, Alan Priest, curator of the metropolitan department of Far Eastern art, explains, are the costumes worn during the presentation of the "No" plays. These were a development of ritual pantomimes and dances. By the Fourteenth century they had become definite stage plays, "in which the most precious legends and examples of behavior were set forth with music, chanting, dancing and orations."

Starting Points
Great and striking discoveries today are tomorrow's starting points of entire industries and professions.

DO YOU KNOW
YOUR VITAMINES?

Chic Triple Sheer Print's the Thing

By CHERIE NICHOLAS

Vitamins are important substances of complex chemical composition which are present in various natural foodstuffs in very small quantities. They are essential for the good health, growth, vigor and general well-being of the body. Continued absence of vitamins from our diet will result in disease or abnormal conditions. Vitamins are often described as necessary body regulators because their function is to protect health and stimulate growth. Many vitamins have so far been discovered. Six are described below and a list of foods rich in each is given. Those foods have been selected on the basis of experimental work done in many laboratories including the Nutrition Laboratory of the Bureau of Home Economics. We quote from their authority book:

Vitamin A A protects the body against a number of troublesome bacterial infections. It also stimulates growth and is necessary for well-being at all ages. Without a regular supply of Vitamin A a person loses vitality and may develop infections in the eyes, sinuses, ears, glands of the mouth and throat, and in some instances in the kidneys.

Good Sources of Vitamin A Cod liver oil extract tablets, butter, milk, cream, liver, egg yolk, cheese; green and yellow vegetables such as spinach, lettuce, watercress, dandelion greens, carrots, sweet potatoes, peas, yellow squash, asparagus, red and yellow tomatoes; fruits such as bananas, apricots, yellow peaches, muskmelon, pineapple, oranges, prunes.

Vitamin B Vitamin B is necessary for good appetite and also for normal muscle tone in the digestive tract. Loss of appetite and listlessness, sluggish digestive systems, and nervous irritability result from a continued diet short in vitamin B, while an absolute lack of this vitamin brings on the disease known as beriberi. Vitamin B is very important to the nursing mother and baby.

Good Sources of Vitamin B Milk, liver, egg yolks, lean pork, oysters; green vegetables; fruits; whole grains. Vitamin B is destroyed by heat more readily than vitamin A and long cooking of vegetables is therefore undesirable.

Vitamin C

A daily supply of vitamin C is essential for children and adults. The necessity of having adequate amounts of Vitamin C in the diet is stressed by all who recognize the importance of good "tooth nutrition." Bleeding gums, loose teeth, sore joints, loss of weight and fatigue are symptoms that develop when the diet is extremely low or lacking in vitamin C. An acute condition of this kind has long been known as scurvy. Though scurvy is rare in this country, many borderline cases with such symptoms as sore gums, loose and decayed teeth, and "hæmorrhage" occur when the diet contains some vitamin but not enough.

Good Sources of Vitamin C

Oranges, grapefruit, lemons, apples, strawberries, cranberries, bananas, peaches, pineapple, raspberries, watermelon; vegetables such as cabbage, tomatoes, spinach, peas, carrots, corn, rhubarb, cucumbers, radishes, beans, etc.

Vitamin D

The mineral elements, calcium and phosphate, are required in the building of teeth and bones, but unless Vitamin D is also provided, these tissues will not develop normally, and stunted growth and rickets may result. There are only a few foods that contain vitamin D in large enough quantities to be considered good sources.

Good Sources of Vitamin D

Sunlight, cod liver extract tablets, foods that contain vitamin D are milk, butter, egg yolks, salmon, oysters.

Vitamin E

Vitamin E is essential for reproduction and is known as the anti-stillbirth vitamin. It occurs in a great many foods in small quantities, but the germ of the wheat grain is especially rich. Vegetable oils, green lettuce, and a number of other vegetables contain considerable quantities of vitamin E. It is not readily destroyed by heat.

Vitamin G

Vitamin G is essential for well-being at all ages. A continued deficiency of vitamin G causes slowing up of growth or loss of weight, premature appearance of old age, sore mouth, digestive disturbances, and in time a sensitiveness and inflammation of the skin. Foods that contain vitamin G are beneficial in preventing and curing pellagra. This vitamin occurs in many foods in moderate or small quantities.

Like vitamin B, vitamin G is very soluble in water. It withstands the heat of cooking much better than vitamin B.

Good Sources of Vitamin G

Milk, buttermilk, cheese, eggs, liver, kidney, lean cuts of meat, animal green leaves, turnip tops, beet tops, carrot tops, spinach, broccoli and watercress; bananas, pears, grapefruit, lemons, oranges, germ portions of cereals, yeast.

THE perfect costume for all-around practical daytime wear has arrived. See it pictured herewith. It's the dress with a jacket that is fashioned of the now-so-stylish triple sheer print. The smartest, the neatest, the most serviceable and best looking are benefiting words when it comes to describing these jacket outfits.

There is not the slightest doubt about the wisdom of including one of the now ingeniously designed jacketed costumes in one's spring and summer wardrobe. It will prove an ever faithful standby ready for every daytime occasion. In the illustration we are showing three particularly good-looking models. They are types that women can live in from morning to night and always look well-groomed.

These brand new jacket styles are in that famous fabric, triple sheer of hemberg, which is expensive in looks but not in cost. The material is pure dye, cool, washable, or dry-cleaned perfectly, if you so prefer. Furthermore, it may be pressed with a hot iron without fear of pulling or slipping at the seams. And, oh, joy of joys, it is practically wrinkle proof and resistant to perspiration.

The extremely good-looking jacket suit to the right in the group is the sort that is ready to go places at a moment's notice. White plique spaghetti cordings and fastenings effectively trim the navy-with-white (other colors or combinations are available) sheer of hemberg material. Dandings or self-fabric are stitched row-and-row on a net foundation for the sleeves, the

© Western Newspaper Union.

PLEATED SKIRTS IN CHIFFON NEW STYLE

The tidal wave that has brought in more width for skirts has also brought in pleats. This type of fuller skirt is available in daytime and evening fashions, although the evening skirt version is being seen more often at present. It is a fashion that may be said to have come out of the emphasis on flowing chiffon skirts, for most of the pleated styles as far as done in chiffon.

There is a particular genre in chiffon and pleats that goes with sunburst pleats; entire skirts and bodices also pleated—very Grecian, and reminiscent of the sunburst evening skirts which Malmboeuf and Louisboulangier offered in evening frocks at their openings.

But there are other interpretations of the pleated idea. In front fullness or back fullness, in those concentrated panel girdles that are used often for adding width this season.

Coarse Novelty Straws

Take Lead in Millinery It is the way of hats to be anything and everything but ordinary. One of the new lines—it's impossible to designate any one type as the newest—is the hat with a brim which projects forward. Boret types are draped that way.

Coarse Novelty Straws Some rough, some shiny, some rough, are everywhere but so too are Milan. There are any number of stitched tamels hats and unusual felt.

Good Sources of Vitamin G

Milk, buttermilk, cheese, eggs,

liver, kidney, lean cuts of meat, animal green leaves, turnip tops, beet

tops, carrot tops, spinach, broccoli

and watercress; bananas, pears,

grapefruit, lemons, oranges, germ por-

tions of cereals, yeast.

Hints for Motorists

By C. R. Strouse
Director, School of Automobiles,
International Correspondence
Schools

Tis unnecessary to take the vacuum windshield wiper apart for its periodic oiling. Instead, remove the regular hose from the wiper and attach a short length of rubber tubing. Insert the free end of the tubing in a can of oil and open the shut-off valve. Move the wiper blade back and forth several times. This will suck in the oil and lubricate every part of the wiper.

Cleaning grease-spotted cement garage floors can be a difficult job, but use of a mixture of kerosene and ashes will make it an easy one. Loosen the surface dirt with a shovel or hoe. Then sprinkle a cup of kerosene on the floor and rub it into the grease spots with an old broom. Work several shovelfuls of fine furnace ashes into the kerosene and grease. After a good scrubbing and sweeping the floor will be found clean and white.

State Named "Desert"

Desert was the provisional state organized in 1849 by a convention of Mormons, and it comprised the greater part of southwestern United States south of the forty-second parallel and west of the Rocky mountains.

Rabbit Traps Dogs

Bland, Texas.—Two dogs got the worst of it when they chased a rabbit. The rabbit ran into a hole. The dogs followed. The hole caved in and it took the dogs two days to dig out. Aside from being nearly starved, they were uninjured.

DIMES FLOOD MAIL
IN CHAIN LETTERSScheme Piles Up Business
for Denver Post Office.

Denver.—"Send-a-Dime" chain letters are pouring into the post office here in a new scheme which has sprung up virtually overnight.

Postal Inspector Roy E. Nelson pronounces the letters a violation of the lottery laws and the law prohibiting the use of the mails for fraud and threatens to arrest the originators of the scheme if they can be found.

The letters are headed "Prosperity club—in God We Trust." They contain a list of six names and addresses.

The recipient is instructed to send a dime to the person at the top of the list.

He then is told to add his own name to the bottom of the list and make five copies of the letter and with the new list send them to friends. The friends are supposed to keep the chain going. As the progression continues the name at the bottom of the list works to the top.

Dimes Are Pyramids.

By the time this occurs, if the chain is not broken, the set of letters will have multiplied to 15,025 and the person at the top of the list gets \$1,502.50 in dimes.

The chains, of course, are always broken, but postal authorities report that one woman got \$400.

Many other stories are current. A poor seamstress is reported to have received enough to purchase a sewing machine. A widow is reported to be paying off burial expenses for her husband. A mother is reported to have paid off hospital expenses for birth of her child and to have had enough over to buy a baby carriage. None of these reports are confirmed.

The letters have multiplied so rapidly that in the last few days almost every family in the city has received one or more.

Defended by Many.

Every one in the city is talking about the scheme and many are angry at postal authorities for interfering. They contend that the scheme is harmless; that many are benefiting; that money is being put into circulation, and that the fun people are having is the bright note in the depression.

The idea is spreading through the state and letters are being sent to other cities throughout the country. It is said that the idea originated in New York, among relief workers, but this has not been confirmed.

Postmaster J. O. Sivick announced a 12 to 14 per cent increase in postal receipts so far over the same period last year, a good portion of which he attributes to the chain letters. The matter first came to the attention of authorities when postmen began to complain of inexplicable increases in the mail they were handling.

Doctors often have to do many things that their patients consider unpleasant and one of those things is saying "Don't . . ." to a good many simple pleasures of the other fellow. For instance, in this matter of vacation days when even the most pleasurable occasion can be fraught with real danger.

Each year Death takes its toll of happy swimmers, campers, motorists, picnickers, etc., and that's why we have to learn to be wary about a few hazards and even in the midst of our fun watch for certain pitfalls.

Most everyone knows that swimming immediately after eating tends to cause cramps and that cramps are responsible for many drownings. Another caution that must be observed is not to go into water above one's depth unless one actually knows how to swim. Those who are good swimmers must watch for undertows and not attempt long distance swims unless accompanied by a boat and fortified by plenty of strength and stamina.

When picnicking in the woods or country be extremely careful of the water you drink. If there is any

TIME TO OVERHAUL

"Time to Re-Tire" has been for

years the slogan of an outstanding make of tires, and "Time to Overhaul" might well become the summer maxim of boys and girls who want to enjoy the best of health all the year around.

During vacation a visit to the doctor for examination of throat, eyes, and lungs, vaccinations, etc., and a call at the dentist's to have the teeth cleaned and examined for any small cavities will help immeasurably in correcting any weaknesses developed during the year and in fortifying one for the winter's hazards that lie ahead.

HEALTH IN LITTLE AMERICA

"Be Prepared" was the great lesson taught by the World War. The same preparedness should be observed in health as well as war, for after all, maintaining good health is a constant waging of war against infection. Fresh air and sunshine are two of Nature's finest and most readily accessible tonics for good health. Plenty of these along with an abundance of fruit, vegetables and fresh-pasteurized milk will go a long way toward preparing the body to resist any infection to which it might be exposed.

Within a few weeks newspapers and magazines all over the country will carry accounts of the return of the Second Byrd Expedition to Little America and of the many experiences of Admiral Byrd and his men during their long months in the polar regions.

Of special value to everyone will be the story of how these men were able to maintain their health under all sorts of weather conditions.

To go from the very hottest to the very coldest regions of the earth within the space of a few months without suffering any physical disability seems almost a superhuman accomplishment.

Yet the Byrd Expedition did just that.

There is much to be learned about maintaining good health in the stories these men will tell.

FARM BUREAU BALL TEAMS OPEN SEASON

Counties Show Greater Interest Than Last Year

For several weeks now, the boys have been "foggin' 'em across the pan in practice sessions for the opening games of the Illinois Farm Bureau baseball league, which opened with a flying start Saturday, May 25. From here on through the season, 25 to 30 County Farm Bureau baseball teams will battle for the honor of being district and finally state champion. The dopestors are betting this way and that. There are some who have turned from baseball to softball and leagues have been organized to satisfy the "softies" in a number of counties. But what is probably of most significance is that farmers are showing more optimism and are mixing a little pleasure with business, to a greater extent than has been true in agricultural sections for some years.

Back from a number of trips where he helped organize baseball districts for the coming season, George Thiem, secretary of the state league says, "This is going to be one of the greatest sport years for the Farm Bureau we have ever known. Farm Bureau baseball and softball teams are organized or soon will be organized in a large number of counties. Economic problems and their solution are still closest to the hearts of our members but they are not neglecting to get a lot of fun out of life as they go along."

Schedules of games have been drawn up. Most of the baseball games will be played on Saturday afternoons.

Pointed Boards Worn
Many men in Queen Elizabeth's time had pointed beards. They wore hats with high crowns and broad brims. Many placed feathers or plumes in their hats. Starched neck-ruffs were about as common among men as among women.

Two Generals With One Arm
There were two French generals during the World war who had only one arm. They were Gen. Henri Joseph Etienne Gouraud, whose right arm had to be amputated at Gallipoli, and Gen. Paul Pain, who lost his right arm in the Franco-Prussian war in 1870.

Good for Man and Beast
Dogs are credited with the discovery of quinine, one of the most beneficial medicines supplied by Nature. Long years ago, the Indians of Peru noticed that dogs with snuffy noses sought out the bark of the cinchona trees. They'd chew some of it, and the snuffles would stop. The Indians tried it, found it good for colds, and it's been used by man ever since—Washington Post.

Longest Lease on Record
Without parallel is a lease for 20,881 years that is held on a farm in the old parish of Kirkhill, Scotland. Drawn up about 200 years ago, reports Collier's Weekly, it was declared to be legal and valid by the highest Scottish court when the government attempted to confiscate the land after the Jacobite rebellion of 1745.

Salamanders Harmless
Salamanders are slimy, but harmless. They do not have scales as do the lizards and snakes. They resemble tiny alligators. Salamanders are close relatives of the frogs and lay their eggs in the water, too. They have gills and pass the early part of their lives in the water, as do frog tadpoles.

Kimberley's Wealth
Kimberley's wealth dates from the day in 1870 when diamonds were first found on the farms of Bullockton and Du Toits Pan. It is a city of churches, hospitals, banks and shopping streets.

Sacred Mountains of Japan
The sacred mountain of Japan has an elevation of 12,905 feet. It is 60 miles west of Tokyo, and is an extinct volcano having a crater two and one-half miles in circumference and 500 feet in depth.

LEGAL

ADJUDICATION NOTICE
PUBLIO NOTICE is hereby given that the undersigned Administratrix of the Estate of JAMES H. MCVEY, deceased, has fixed upon Tuesday, the 3rd day of September A. D. 1935, as the return day for the hearing of all claims against the above named Estate. All persons having claims against said Estate, are hereby notified and requested to attend the Probate Court of Lake County, Illinois, on said date at ten o'clock A. M. for the purpose of hearing said claims adjested.

RENDEZVOUS

By R. H. WILKINSON
© Hall Syndicate—WNU Service

NOW there's a girl," said Ken Briggs, pointing over the heads of the dancers, "who's worth writing home about."

Don Green, who stood at Ken's elbow at one end of the sing line, nodded.

"One in a million," he agreed. "It's a pity she couldn't have done better when she picked a husband for herself."

"Married Larry Frank, didn't she? What's wrong with him?"

I remember Larry, he wasn't a bad egg."

"It isn't that. It's simply that he doesn't appreciate the prize he won when Betty accepted him. Take tonight, for example. He hasn't danced with her once. He acts like he'd never met the girl."

Ken eased away from the sing line and found a seat for himself in a remote corner of the room.

Strangely, the things that Don Green had just said were an accurate interpretation of his own thoughts.

Long ago, when Ken and Betty were at high school age, the two had been sweethearts.

Ken remembered with a shiver the remembrance of that association was a cherished memory with Ken.

After he'd gone out in the world to shift for himself, after he'd come in contact with the ugly things of life (and the pleasant ones, too) he thought about it more than ever. And now as Ken reflected upon the variety of experiences and adventures which he had undergone since leaving Maplewood, he told himself for the hundredth time that nothing in his life had been much finer, or more beautiful, than those sweethearts days with Betty Rowe.

And now Betty was married!

Well, he had expected that. He had expected it even though down deep in his heart he had half hoped all during the train ride from Boston to Maplewood that she wouldn't be.

And he had known a keen sense of disappointment upon being told that Betty had accepted Larry Frank.

Ken smiled wistfully as he recalled his disappointment.

Of course it was silly and entirely unreasonable.

After all, you couldn't expect a girl as sweet and lovely and as fine as Betty Rowe to remain single all her life.

After the first shock of it Ken hadn't been wholly displeased.

To begin with, Larry Frank was about as fine a youth as Maplewood had to offer.

He had been in their class at high school, and since graduation had become a credit to his town and his family.

Ken remembered what Don Green had just told him.

Well, you couldn't tell about men these days.

Better men than Larry Frank had turned out for the worse after reaching their maturity.

The thing was puzzling.

Ken sank back in the chair which he had located in an alcove behind a palm tree and began to brood.

Could it be that Betty and Frank were unhappy?

Could it be that Frank had actually tired of his charming young wife?

It seemed incredible. Time had, if anything, added to Betty's loveliness and charm.

It didn't seem quite possible that any man could tire of her.

And yet it was obvious that Frank had other interests, when at a party, besides devoting his attention to his wife.

During the week that Ken had been in Maplewood he had seen a good deal of the pair, and not once had he witnessed any demonstration of affection between them.

Unconsciously Ken clenched his fist.

Mr. Frank was making her unhappy...

A young couple were dancing on the other side of the palm tree.

It was a dreamy waltz and the lights had been dimmed.

Ken couldn't distinguish the figures very clearly, but he knew, without making half an effort, that the girl was BETTY. Her head was resting on her partner's shoulder. She seemed happy and contented and decidedly pleased with the dance.

As Ken watched, the music stopped and during the brief interval before the orchestra awoke into the encore, Ken saw Betty's partner take hold of the girl's arm and lead her quickly into the alcove where art ken.

Ken was not naturally a curious person.

Other people's business was their own.

And ordinarily he would have stood up and moved away, leaving the young couple to their own devices. But this situation was a little different. A lot different, Ken thought.

He was sure that Betty and her partner had not seen him.

The alcove was only dimly lighted and the palm tree separated them.

Without moving he could witness quite clearly the scene that was being enacted within a few feet of him.

Instantly upon sitting down, Betty had reached up and drawn the man's face down to her own. He crushed her to him and held her close, for it seemed, an eternity.

Ken felt the perspiration appear upon his forehead.

Without knowing it his fingernails dug themselves into his palms until blood appeared.

And in that moment something hap-

pened inside of him that shattered every beautiful illusion and optimistic outlook he had ever entertained toward life and women.

Now, one of all the people Ken had ever known, could have so completely changed his whole viewpoint as did Betty Frank in that moment when he saw her in the arms of another man, disloyal to her husband, acting as would any cheap, common wench.

Ken cursed under his breath and wished she was anywhere but there in the alcove.

It seemed that the solid foundation that had been his assured support had in that single instant been utterly and completely swept away.

Of one thing he was sure.

He had misjudged Larry Frank.

It was Betty's fault.

Betty had been the deceiver, the cause of their trouble. And, Larry, good, noble Larry, had gone on without saying a word, covering up the mystery he must have felt, merely being polite to his wife in public, without once indicating he hated her for her treachery.

Suddenly a fierce anger welled up in Ken's soul.

It wasn't fair.

It wasn't fair to Larry or to him.

Betty had been his guiding light as much as she'd been to him.

She had served now to shatter his every illusion as she had served to shatter those of her husband.

Ken found himself on his feet.

He wasn't thinking clearly, but he knew he was going to do something drastic.

He was going in behind that palm tree and take that man by the scruff of the neck and tell him a few things.

And then he was going to talk to Betty.

And he didn't care if everyone in the hallroom heard him either.

It was high time her treachery was revealed, that the world knew that Larry was exonerated.

The music had stopped again.

The lights were brighter.

Betty and her partner were standing up.

At that moment, Ken, blindly enraged, averted aside the palm leaves and stepped in front of them.

With one hand he reached up, grabbed hold of the collar of Betty's partner, and jerked him about so that he could look into his face.

Betty screamed.

The man whose collar was suddenly tightened by Ken's grip, awoke in sudden surprise.

Dancers who were walking off the floor, stopped and stared. And Ken Briggs' mouth sagged open and a slow flush spread over his face and up about his temples.
